

Capabilities

- 0.125" through 8.00" thick UHMW sheet in unlimited sizes up to 5' x 12'
- 0.25" through 10.00" diameter UHMW rod
- 0.25" x 1.50" through 0.50" x 4.00" UHMW King Coil up to 250' long
- 0.004" through 0.012" UHMW film up to 6.00" wide
- Standard and custom profiles
- Standard and custom formulations engineered for optimum performance
- Fabrication services including 4-axis CNC milling, 3D CNC routing, CNC turning and machined parts assembly
- Design and engineering services

UHMW is used in a variety of applications

Heat formed UHMW for linear transfer applications

UHMW for impact fender systems in marine environments

UHMW acts as a wear resistant chain guide at sawmills
