

INDUSTRIAL ASTROTURF® SHEET

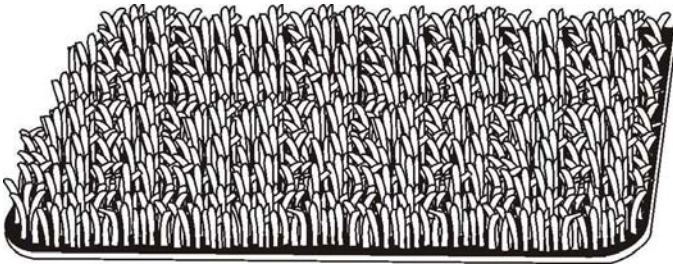

This new product combines Astroturf-like plastic grass with a tough HDPE base plate. This combination creates a unique and versatile substrate with endless applications.

Common Uses

- Bumpers, stops and shock absorbers
- Work surface for fragile items
- Tool box liners
- Entrance matting, shoe cleaning areas
- Heavy equipment, boat docks
- Automated potato scrubbers
- Filtration media
- Animal brush
- Concrete texturizer
- Fish hatchery breeding media

Product Features

- An artificial grass-like surface
- UV stabilized for outdoor use
- Excellent cold temperature properties.
- High surface area is excellent for collection of spray or dust
- Thick HDPE backing allows secure fastening
- High coefficient of friction when two grass surfaces are mated
- Easily cut, drilled, routed or die cut

Plastic backing thickness – 0.165”

Grass height with backing – 0.906”

Color – UV stabilized black

Standard size – 24” x 48”

Custom sizes are available upon request. Please ask us about our cut-to-size and custom CNC fabrication capabilities. We also offer computer aided design (CAD) drafting in addition to our computer aided manufacturing (CAM) technologies. We are able to deliver product to the greater Seattle area from Everett to Olympia.
