

Partition Board

Partition Board® is the ideal partition material for a wide variety of commercial applications such as schools, parks, stadiums, office buildings and airports. The durability of our material makes it immune to such problems as vandalism and constant traffic. In addition, the material is totally unaffected by water and humidity preventing it from shrinking, expanding, bowing, warping or delaminating in any way whatsoever. It is resistant to markings by pens, pencils, most markers and paints and cleans with ordinary household detergent or solvents for more stubborn stains. Minor surface damage can easily be repaired. Finally, the material does not have to be painted and is virtually maintenance free.

Features

- Moisture resistant
- Stain and graffiti resistant
- Sanitary - odor and mildew resistant
- Glossy textured finish
- Never needs painting
- Won't delaminate, splinter or crack
- Available in a variety of colors for unlimited design potential
